In order to win prizes on The High Life pokie, you'll need to match three or more of the same symbol on any of your active paylines. However, unlike almost every other game we've reviewed here at Australian Gambling, there's no need to put these symbols in any particular order on a given payline. As long as three or more of the same symbols appear anywhere on a payline – left to right, right to left, or scattered across it – you'll be rewarded with a prize. This makes it much easier to win a prize, as combinations that would feel like near misses on other games make small wins on The High Life. A player's total bet for each spin is determined by multiplying their line wager by a power of fifty. When a player spins a winning combination, the "Way Wins" as Microgaming calls them (think of them as payouts per line) reward the gambler with an amount as established on the machine's pay table which is then multiplied by the number of coins bet per line. Arctic Fortune payouts are converted into player credits by multiplying the payout by the bettor's chosen coin size. Available coin sizes on all versions of this unique Microgaming title are as follows: \$0.01, \$0.02, \$0.05, \$0.10 and \$0.20. The game's Scatter wins pay out a little differently, based on the pay table's indicated prize which is then multiplied by the total number of coins wagered. +88 telephone

A pokie can contain a 5x multiplier which will increase the winnings 5 times, or a 2x multiplier which will double the winnings. Multipliers work a little like a wild symbol as it replaces other symbols in winning combinations. Unlike other Microgaming poker machines, only two of this game's images are animated, and only when they form part of a winning combination. Both the pilot wild symbol and the balloon scatter symbol have short animated movements; in the case of the wild symbol, the pilot image starts out as a deep focus shot, zooming in to get a close-up view of the pilot in action. The scatter symbol balloon image sets in motion by flying low over a hilly landscape, only when it is part of any winning combo. vegas world cheat engine

Playing Double Exposure Blackjack comes with its own strategy that players can use to win more often than others.
