One other rule needs to be pointed out about the high/low variant. In order for a hand to qualify for the low, the hand cannot contain a card higher than an 8. In Omaha 8 or Better, if you were dealt 2-9-Q-K, you wouldn't even be able to qualify for the low pot because one of the cards from your hand would have to be higher than an 8. The player must be able to play a hand that is 8-7-6-5-4 or lower (straights don't count in the low game). A player who was dealt a 2-9-K-A would be able to qualify, though, since the hand could be read as A-2-9-K, with the ace as 1. For this reason, aces are particularly important in Omaha 8 or Better. On occasion, you'll have a hand where no player at the table qualifies for the low hand, due to the 8-high rule. In the event this happens, then the whole pot is won by the player with the highest hand. Just like chips and crisps, slots are called various names around the globe. In America and Canada it's just a slot or slot machine, in Great Britain you'd have to say fruit machine (which is also less formal). With your Scottish lads, you'd call it a puggy. Going a bit upside down would make it poker machine or pokie (in slang) in Australia and New Zealand. The quirky new Dragonz slot introduces you to four unforgettable creatures whose objective is to keep you well rewarded on the reels, especially during the free spins rounds. planet 7 casino

Either way, your chances of winning won't increase, but your odds of keeping a bigger share of a jackpot you hit will get better. guess the game casino answer
