Let us start by listing the hands that are a big favourite against you: AA, KK, QQ, JJ, 88, 77, 22 and 87. All these hands are in his range. AA/KK/QQ are unlikely because he did not reraise pre-flop. Please note that since you are holding two tens yourself, T9 becomes 50% less probable. Then you are also a big favourite against pure bluffs like KQ or A5. There are clearly more hands that beat you and in those cases you only have two outs. Therefore, in this situation, this is a fold. Placing a bet is as simple as in any other online game. Just place your bets on the appropriate betting spot. You'll have about 20 seconds between each hand to do so, so there's no rush to get your money down. Once your bets are placed, the dealer will deal out both the player and banker hands, scanning each card as it comes out of the shoe to ensure it is properly recorded. Once the results are determined, all winning bets will be paid out, and the betting will start for the next hand.
