A round of baccarat consists of dealing 2 to 3 cards to the player and the banker. The object is to get the score closest to 9; whoever does so wins that round. King, Queen and Jack are worth 0; the Ace is worth 1 and all other cards are worth their face value. If your hand totals more than 9, the first digit is dropped from your score; for example, 14 points becomes 4. There are 3 types of bets on the dealer to win, on the player to win or on a tie. Although only one player hand is dealt, any number of players may wager on the outcome of each round. CoolCat casino is accessible via a variety of platforms and devices.
